

**FL**  **RWORKS**  
THE CREATIVE FLOOR COVERING

LUXURY STYLE FLOORING 15-25 YEAR WARRANTY

# FLOORWORKS

...recreating luxury affordably...

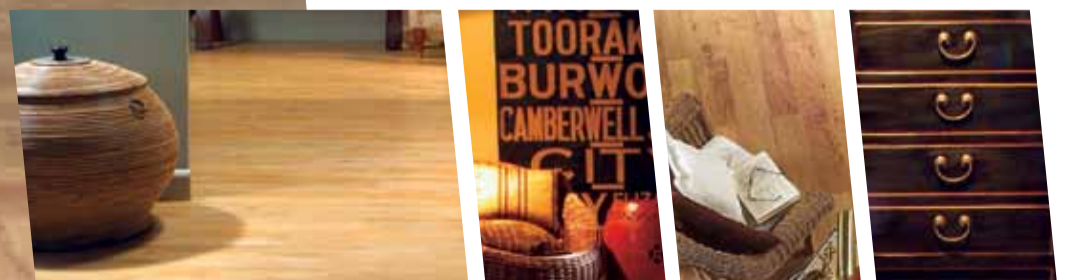

Floorworks has been designed to deliver the visual appeal of luxurious natural finishes, plus the durability to withstand modern lifestyles at an affordable budget.

**Comfort** Floorworks resilient construction makes it quiet, easy on the feet while minimising breakages in kitchen and wet areas.

**Multipurpose** Floorworks products are designed for high domestic light or heavy commercial use. In wet areas, protection and ease of maintenance are vital.

**Low Maintenance** Easy to clean, easy to use and easy to maintain. **AloxPlus** to minimise abrasion and protect your investment. Floorworks features the **ScuffOff** low maintenance finish which minimises scuffing so you can spend more time enjoying your floor and less time doing domestic chores.

**Health** Smooth flooring is beneficial to those suffering respiratory problems as it leaves nowhere for mites & allergens to hide.

The creative use of lighting and furnishings with your Floorworks tiles and planks can create moods, colour tones and ambience limited only by your imagination.

# PROTECTION

## ScuffOff

Scuff Off is an advanced treatment, developed through Australian technology, which makes maintenance of your floors a breeze.

It is applied as part of the manufacturing process and then cross linked using ultraviolet light, making initial sealing unnecessary.

Scuff Off delivers a range of benefits:

- Permanently fills "micro pores" in the floor surface, leaving no where for dust and dirt.
- Provides an initial shield to protect the floor, minimizes scuff marks and makes them easier to remove.

## AloxPlus

AloxPlus is the result of two years of research and development by Australians for Australian conditions. Like ScuffOff, AloxPlus is an advanced floor treatment, designed to maximise it's life and beauty, acting as a barrier to greatly enhance abrasion resistance.

## Together...

These two hi-tech protective surfaces deliver a level of superior protection, not previously available in Australia.

# CRAFTMASTER COLLECTION

## Visual and tactile...

The Craftmaster Collection is the culmination of years of technological advancement in flooring.

While we still marvel at flooring which delivers all the appealing visual beauty of our natural timbers, we now have a range which also appeals to the tactile senses.

Craftmaster not only represents the colours and grains of some of our great Australian timbers, but it's rustic, hand scraped finish replicates their touch and feel.

This is the work of a true master of craft.

Come and touch our hand scraped floors...

# INTERNATIONAL COLLECTION

## Urban and modern...

The International Collection recreates robust timber images in a contemporary width plank adding style and space to smaller urban living areas. With the luxury of larger spaces Floorworks "design features" add an additional dimension in flooring layout design.

### Warranty

Provided the product is installed and maintained in accordance with the recommendations.

Floorworks International Collection is warranted against manufacturing defects and normal wear and tear for up to 15 years in a domestic environment and 5 years in a light commercial environment.

# TOWN & COUNTRY

## Dreams of a rural life...

Rustic, more opened grained timber patterns for those who long for the rural lifestyle and those lucky enough to live it. Floorworks Town & Country planks are 50% wider for that authentic traditional look, particularly in larger rooms and open areas.

### Warranty

Floorworks Town & Country Wide Plank Collection is warranted against manufacturing defects and normal wear and tear for up to 15 years in a heavy domestic environment and 5 years in a light commercial environment. Provided the product is installed and maintained in accordance with the recommendations.

# NATURAL STONE

## Designed for living...

As architects seek out newer and ever wider design options so this Natural Stone range develops to meet the demand.

New slates from China and exotic Kashmir.

Hand rubbed, polished and bleached stones from minimalist to rustic. Sandstones from every corner of Australia in the larger 457 x 457 mm size reflect the wide open spaces.

### Warranty

Floorworks Natural Stone Range is warranted against manufacturing defects and normal wear and tear for up to 25 years in a heavy domestic environment and 7 years in a commercial environment. Provided the product is installed and maintained in accordance with the recommendations to maintain the warranty.

# DESIGN OPTIONS

## Express your individual style...

Designer strips in matching patterns and colours, borders which go around corners, feature strips to replicate traditional grouting or as a feature to enhance the colour and image of your floor. Colours that lift, enhance or contrast that will create the ambience you crave, complement the furniture, the walls or your imagination.

Combinations are limitless, the rules are yours. From minimalist to complex, it's your floor. Follow your own instincts or consult your decorator or floor layer.

## Installation

Installation should be in accordance with AS 1884 -1985. Sub floors need to be either concrete or Hardboard and must be smooth, hard, clean and dry before applying planks or tiles. Prior to laying, flooring should be stored at a constant temperature between 16°C and 26°C for a period of 24 hours. After installation these temperatures must be maintained for 24 hours to ensure the adhesive has reached its maximum bond strength.

## Care & Maintenance

All floors require some type of regular care to maintain their beauty. Floorworks Planks and Tiles are easy to care for and will provide many years of satisfaction by following these simple maintenance suggestions:

1. Vacuum or sweep regularly to remove any loose dirt or grit.
2. Wash your floors with 'Kenbrock Maintain'.
3. Over time some dulling may occur in high traffic areas.

To restore the floors lustre clean the floor with 'Kenbrock Remove' and apply 'Kenbrock Rejuvenate'. Either full gloss or satin.

## Protecting your Floorworks floor

To further protect your Floorworks floor from high surface traffic, use entrance matting at doors and place felt protectors on the legs of easily moved furniture – lifting rather than sliding it across the floor.
